

# POP-UP FUELING CENTERS

## HYDROGEN WHERE IT'S NEEDED MOST

Pacific Clean Fuels' Pop-Up Hydrogen Fueling Service offers a fast, flexible solution for expanding hydrogen access, allowing fleet businesses to tap into clean energy without long-term infrastructure commitments.

### HOW POP-UP FUELING CENTERS WORK

- » Mobile fueling stations are quickly set up in high-demand locations.
- » Pop-Up Fueling Centers work with OneH2's hydrogen delivery and on-site generation solutions to provide a reliable supply for all operation sizes.
- » A tiered pricing structure offers cost advantages for higher volume and network card discounts.

### ADVANTAGES OF TEMPORARY HYDROGEN FUELING

#### FAST MARKET EXPANSION

Launch fueling where demand grows—no need to wait for permanent sites.

#### DECREASED INVESTMENT RISK

Avoid high capital expenditures by utilizing flexible fueling solutions.

#### FUTURE FUELING CAPABILITIES

Pilot hydrogen use before committing to full infrastructure.

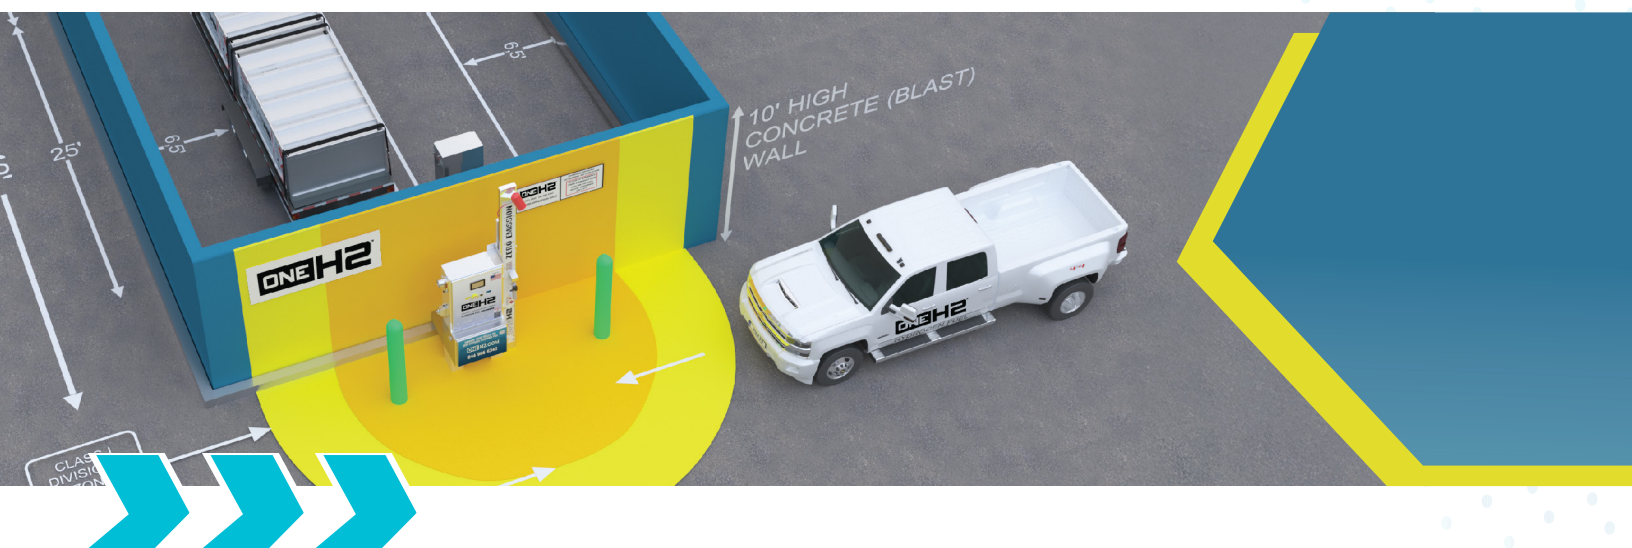

#### SUPPORTS FLEET TRANSITION

Transition fleets without major fueling limitations.

#### REMOTE & SPECIAL OPERATION COMPATIBILITY

Perfect for remote sites, logistics hubs, and temporary needs.

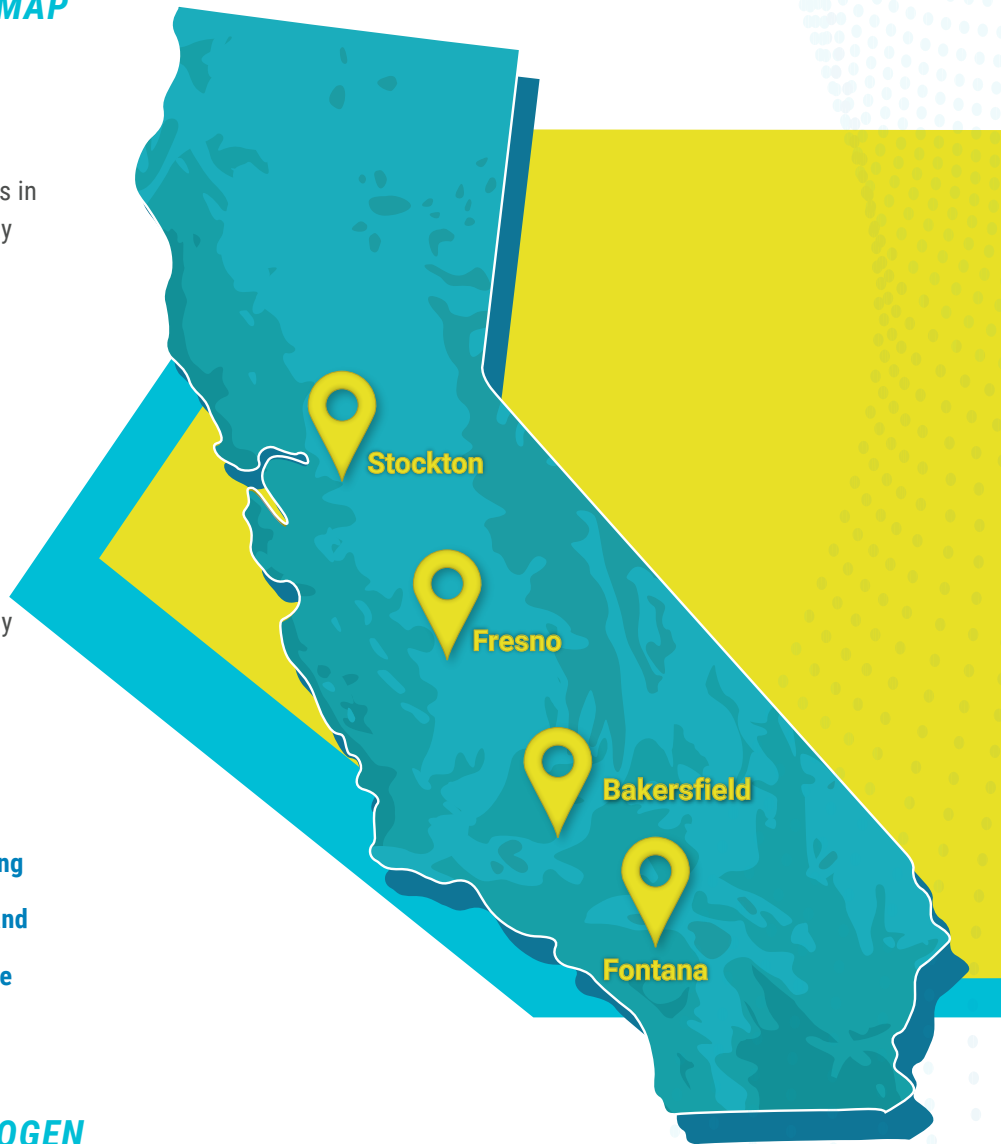

## FUELING STATION DEPLOYMENT MAP

### NEAR-TERM TERMINALS

- » **Stockton:**  
Serves municipal fleets and transit agencies in Sacramento, Modesto, and parts of East Bay
- » **Fresno:**  
Serves agricultural operations in Central Valley regions with smaller deliveries
- » **Fontana:**  
Supports warehouse logistics and industrial applications in San Bernardino, Riverside, and eastern LA County
- » **Bakersfield:**  
Provides local distribution in close proximity to the Shafter production facility

### FUTURE ADDITIONAL TERMINALS\*

- |                     |                   |
|---------------------|-------------------|
| » <b>San Diego</b>  | » <b>Redding</b>  |
| » <b>Sacramento</b> | » <b>Portland</b> |
| » <b>Las Vegas</b>  | » <b>Seattle</b>  |

## THE FUTURE IS DELIVERED HYDROGEN

Leveraging **OneH2's hydrogen delivery technology**, Pacific Clean Fuels makes it easier to deploy fueling exactly where needed. Our Pop-Up Fueling Centers bridge the gap to a fully established hydrogen infrastructure for fleet operators, logistics hubs, and commercial sites.

## START YOUR JOURNEY!

Maximize your hydrogen fueling potential with OneH2's trailers and mobile fuelers. Contact Pacific Clean Fuels today to explore tailored solutions for your needs!
